

hs40

The HydroFLOW hs40 is designed for domestic systems and is especially suitable for multi-bath-roomed homes. Similar to its cousin the hs38, the larger and more powerful hs40 is designed to offer a chemical-free alternative in addressing the effects of new and existing hard limescale encrustation on plumbing systems and the impact that this hard limescale has on the efficiency of and longevity of boilers and their increased energy usage.

The unit can fit around a pipe of any material with no plumbing required.

 UP TO 63MM

- New Limescale
- Existing limescale
- Suitable for the average two to four-bedroom sized home
- Fits on pipe size up to 63mm outside diameter
